

Business Areas:	Development and production of sensors, transmitters and hand-held devices for humidity, temperature, dew point, moisture in oil, air velocity, CO ₂ , mass flow and pressure, as well as humidity calibration systems.
	E+E Elektronik operates an accredited calibration laboratory according to EN ISO/IEC 17025 and has been commissioned by the Austrian Federal Office for Metrology (BEV) to provide the national standard for relative air humidity and air velocity.
Key Areas of Application:	HVAC and building automation, industrial process control, automotive, pharmaceutical and food industry, clean rooms, environment and agriculture.
Technology:	Thin-film technology
Company Figures	
Number of employees:	275
Turnover 2017:	EUR 42 million
Export quota:	97%
R&D quota:	10%
Year Founded:	1979
Owner:	Dr. Johannes Heidenhain GmbH (Traunreut/Germany)
Management:	Josef Hartl, Wolfgang Timelthaler
Locations	
Headquarters:	Engerwitzdorf (Austria)
Subsidiaries / Sales offices:	Germany China (Beijing, Shanghai, Guangzhou) France Korea Italy USA
Sales partners:	Worldwide network of dealerships
Certifications:	ISO 9001 (since 1993), IATF 16949 (since 2018)
Environment Policy:	Member of the Austrian Climate Alliance (since 2002) ISO 14001 (since 2002)
